* move backwards thru space/time to point of final assembly

inside a foundry like bldg.

not final assembly

- something peculiar about the tracks
cold, grey outside
- * where is the tank?
over there w/o tracks
 - * move to 100 NM - describe location in terms
of geography
about 30 miles to the NE of where I
was before
nearer the city
a big factory complex
 - * describe again - where
about 30 mi NE of where I was
about 30 mi SE of a big city (he said
Moscow earlier)
 - * free flow - anything to add
something funny about taking the photo.
They did not feel tension or pressure
as though they could take the photo
again.
 - * saw data:
~~he was not~~ the guy developing the film
was not rushed.
 - * is he the guy who took photo
only saw back - saw no restriction
like he was ok to take picture
 - * wearing: soft full cap, dark loose wool
dark jacket - not a suit like a
work jacket
origin of photo is known +
